FILE HEADING.

Water rate charges, for the Special Magistrates Court at Kolar Gold Fields

From

The D. M. Kolar.

No. 72 Dated 23-7-23 Received 30-7-23

Diary No. 475	Enclos. 1	Spare Copies.	Serial No. 1

BRIEF ABSTRACT OF LETTER.

Recommends that the accumulated water ~~rate~~ charges for the tap in the compound of the Special Magistrates Court at K.G.F. may be written off the account and that the tap in question may be treated as a public tap.

NOTES AND ORDERS.

Submd.

The same difficulty arose in the case of the tap in the compound of the Munsiffs Court at K.G.F. It was well known that no Munsiffs Court should have Exclusive house connection and that the

NOTES—First Sheet.

Serial No.

tap in the compound of the Court left for the use of the litigants who resort to the Court. The charges for the water consumed are being borne out of the contingent allotment of the Court.

2) In the present case, the house connections that have to be given are not less than 6 excluding the quarters of the peons, Sweepers. The cost may be a little more in this case. In the long run it is cheaper to put to give house connections and charge for the water than to write off the water charges incurred for water utilised from the tap in the compound of the Court.

3) The latter arrangement seems to be
(1) to give house connections and charge for the water consumed.

(2) To put up a separate metre for the common tap and the cost charged to the contingent allotment of the Court as in the case of the Municipal Court at K. G. 7. The cost involved on this account should on no account exceed Rs 60/- per annum.

(3) To ascertain the amount that has been recommended to be written off and by how much the Cost by reappropriation from the

9) Returned with compliments.

8) 2. The Kolar Gold Fields Water Supply is run on commercial lines and hence it does not seem - - desirable to write off the arrears.

9) 3. It would be better if meters are fixed to all the houses and charges recovered from the occupants for the quantity of water actually drawn. The wate consumed by the servants may be paid for from the contingent grant of the Court.

10) 4. It is reported that an estimate amounting to about Rs 750 has been prepared at the requisition of the Special Magistrate and sent to the Executive Engineer, Kolar Division, for sanction. On receipt the work can be put in hand.

11) 5. The arrears of water charges due on the buildings amount to Rs 290-10-0 up to end of July 1923. This can, as suggested, be met out of re-appropriation of sanctioned grants. The average charges per month come to about Rs 13 or 14. Each of the houses may be assumed to consume about 2000 gallons of water per month and if each house pays about Rs 1-14-0 per month, the Court will have to pay only about Rs 3 or 4 per month.

12) 6. The common tap which is stated to be used by the public, will, if still considered necessary, be shifted to any other place where it might not be open to the public.

7.

7. As Government have directed that 3 taps only may be considered as public fountains, the tap in the compound of the Court officials need not be taken as a public fountain.

16.8.23.

Chief Engineer for Irrigation

Bangalore,

17th August 1923.

From

The D. Mirdas letter no PC 72 J 13.8.23

Requests that early orders may be passed on the matter of the water charges for the Special Magistrates' Courts and clerks of the Courts in the K.G.F.

14) The proposals of the Chief Engineer may perhaps be approved. It is yet too early to say whether the amount of arrears already due & perhaps a further sum, till separate concessions are given, can be met by re-appropriation

Gen Secy

As regards the tap in the Compound of the Court the charges may be met out of the Contingencies of the Court in the same way as the tap in the Compound of the Court. The Amount required to meet the amount will have to be met by re-appropriation

As regards a tap near the Mosque Gharies, it appears advisable

NOTE—Contn. sheet.

OFFICE OF THE DEPUTY COMMISSIONER,
KOLAR DISTRICT,

Dated, Kolar....23rd...J..u..l...y192 3.

FROM, S.Hiriannaiya, Esq.,M.A.,B.L.,
~~THE~~ DEPUTY COMMISSIONER, &
District Magistrate *Kolar District.*

To.
K. M a t t h a n, Esq., B.A.,
Chief Secretary to Government of Mysore,
Bangalore.

Sir,

In forwarding herewith, copies of K.G.F.Special Magistrates communications Nos:578, 331 and 367 dated 20-6-23 20-1-22 and 16-2-1922 respectively, regarding the payment of water charges for the use of water from the taps by the Special Magistrate's Court as well as by the officials and menial servants of the Court, I have the honor to state that that as the tap is not used exclusively by the Court officials or peons it would be unfair to call upon them to pay any portion of the charges. Either exclusive house connection may be given or a compound wall put up round the tap so as to prevent access to the general public. But both these means may involve expenditure

10

to Government. I therefore recommend that this tap may be regarded as a public tap which in reality -- it is, and that therefore the arrears may kindly be ordered to be written off the accounts.

I have the honor to be,
S i r,
Your most obedient servant,

Treasury Assistant Commissioner,
For District Magistrate,
Kolar District.
(absent from station).

Letter No:331/1 dated 20-1-22 from the Special Magistrate, K.G.F. to the Deputy Commissioner, Kolar District.

I have the honor to enclose herein a copy of letter No:300 dated 20-12-21 from the Superintendent of Pumping Station, Bethamangala, forwarding for counter signature and return the marginally noted bills for consumption of water during the month of November 1921.

egarding the bill of the Special Magistrate's Court, I beg to state that no amount is allotted to this Court in the current years budget grant and to request therefore that instructions may kindly be issued in the matter of the adjustment of the bill under reference as well as those of the kind which may be received hereafter.

As regards the charges claimed for the officials' quarters the occupants thereof state that they are ~~are~~ not paying the above charges in as much as the water charged for is not consumed by them exclusively.

Besides the officials' quarters which are 5 in number, there are 6 quarters for servants in the same neighbourhood and the water tap is located at some distance from these buildings and is common to all. Moreover the tap , situated as it is in a public place is used by coolies working in the Edgars Shaft on their way to and from that place.

Under these circumstances it does not seem fair to demand the water charges from the occupants of the officials' quarters above unless the tap is given inside their own houses.

~~Reply from the Deputy Commissioner, Kolar District.~~

x x x x

Memo No:367/2 dated 16-2-22 from the Special Magistrate, K.G.F. to the Deputy Commissioner, Kolar District.

Water for which charge is now demanded was being supplied free hitherto and the bills under reference were received for the first time. claiming the charge.

The consumption of water in the court compound is about 2000 gallons per month now and it is likely that consumption may be doubled in the ensuing summer season. Moreover it is intended to lay out a small garden in front of the Court house, which may required about 4 to 5 thousand gallons of water every month, so that the total quantity required may come to about 10,000 gallons costing merely Rs 10/- per month or Rs 120 per year.

~~fici~~ Regarding the consumption of water by the occupants of the officials quarters, it is requested that as has already been suggested in the reference under reply, house connections may kindly be caused to be

given and the metre placed in those quarters, so that eahh tenant may be made to pay for the water consumed in his quarters. The present occupants of these quarters are quite agreeable to this arrangement.

As regards servants, they state that they are too poor to pay water charge. Considering the costliness of the locality and the fact that these servants have been given quarters free by the Government, probably due to their inability to pay rent, it seems fair that they should be exempted from any such payment. For the above reasons it is recommended that sanction may kindly be obtained for a free supply of water to this tap as in the case of other public fountains in the Champion Reef.

Regarding the suggestion that access to this tap by the public should be prevented it may be said that it is not possible to do so unless a compound wall is put up at a considerable cost enclosing both the officials and servants' quarters in it, this seems to be a costly arrangement and is not likely to be got done in the near future.

Letter No:578 dated 20-6-1923 from the Special Magistrate, K.G.F. to the District Magistrate, Kolar District.

In inviting favour of reference to the correspondence ending with this office No:424 dated 17-5-1923, re: water charges of official quarters, I have the honor to state that the officials occupying these quarters are very much inconvenienced for water of proper water facility to them and they desire that they may be given house connections . Moreover, the arrears of water charges are increasing and the Water Supply Department is consistently asking for a speedy disposal of the question.

I request the favour of early orders.

To. K. Matthan, Esq:, B.A.,
Chief Secretary to Government of Mysore,
Bangalore.

Sir,

In continuation of my letter No. J.C. 72/23-24, dated 27-7-1923, I have the honor to forward herewith, copy of letter No. 134 dated 4-8-1923, from the Special Magistrate, Kolar Gold Fields, urging for the early settlement of the question of payment of water charges for the use of water by the officials of the Court of the Special Magistrate, Kolar Gold Fields and to state that the orders of Government may kindly be obtained at an early date.

I have the honor to be,
Sir,
Your most obedient servant,

S. Hiriannaiya
Treasury Assistant Commissioner,
For District Magistrate,
Kolar District.
(Absent from Station)

The Chief Engineer for Irrigation has been consulted unofficially. His report may be awaited.
16.8.23

Letter No:134 dated 4-8-1923 from the Special Magistrate K.G.F. to the District Magistrate, Kolar District.

In continuation of this office No:584 dated 7-6-1923 regarding the adjustment of water charges of official quarters, I have the honor to forward herewith copy of letter received from the Chief Engineer for Irrigation, today, pressing for the early adjustment of the arrears and to request you to pass needful orders in the matter early.

The question of sanctioning separate contingent allotment to meet the water charges of the tap in the Court compound is also pending your orders along with that of official quarters.

I am writing to the Chief Engineer for Irrigation that the matter is pending your orders.

Copy of letter No:M.1199 dated 3-8-1923 from the Chief Engineer for Irrigation, Bangalore to the Special Magistrate, K.G.F.

With reference to correspondence ending with letter No:1622 dated the 14th June 1923, from the Executive Engineer, Water Supply Division, to your address, regarding the excess water charges due from the Special Magis-

Magistrate's Court and also the officials of your Co.
I have the honor request that you will be so good as
to kindly arrange for the very early adjustment of
the amount due, Viz: Rs.330 (Rs.306-9-0 by the offici.
and Rs.23-7-0 by the Court) as it is long overdue.

"COPIES"

For District Magistrate,
Kolar District.
